

June 24, 2011

Mr. Chris Alles
Massachusetts School Building Authority (MSBA)
40 Broad Street
Suite 500
Boston, MA 02109

Dear Mr. Alles,

A complete Building Code and Fire Safety Analysis is included within the Construction Documents on drawings A0.3, A0.4, A0.5 and A0.6. Additionally, the design has been reviewed by an independent building code consultant, Cosentini Associates. All recommendations from Cosentini Associates were incorporated into the building design and the Building Code Analysis. Additionally, we requested that Cosentini Associates complete a final review of the 100% Construction Documents. A final review letter is included herein.

Sincerely,

A handwritten signature in blue ink, appearing to read 'James S. Jordan', is written over a faint, larger version of the signature.

James S. Jordan, Principal, AIA
Ai3 Architects LLC
