

June 24, 2011

Mr. Chris Alles  
Massachusetts School Building Authority (MSBA)  
40 Broad Street  
Suite 500  
Boston, MA 02109

Dear Mr. Alles,

The Program Comparison Analysis document compares the program name and allotted square footage identified in the 50% Construction Document Submittal and the 100% Construction Document Submittal. Only very minor changes were made as highlighted below:

**Health and Physical Education**

In the Health and Physical Education category, the HS Athletic Director's Office and Secretary Space were renamed to HS Athletic Director's Office. Also, our 50% CD Space Summary incorrectly identified the HS Gym as 1,400sf (identified in the ROOM NFA column); however, the overall size was still accurately identified in the 50% Space Summary Program as 14,000sf. This error was corrected in the attached Space Summary Program dated June 17, 2011.

**Administration and Guidance**

In the Administration and Guidance category, the HS Control Secretary was renamed to Security Officer. The square footage of this space has not changed. Also, the HS Resource Officer was renamed to School Security Officer. The square footage of this space has not changed.

The items listed above are only minor variations in the program. The overall gross square footage of each category did not change, nor did the overall gross building area change from the 50% Construction Documents to 100% Construction Documents.

Sincerely,

A handwritten signature in blue ink, appearing to read 'James S. Jordan', is written over a blue circular graphic element.

James S. Jordan, Principal, AIA
