

July 2011 Update

Summer is usually a time when committees have a lighter schedule. This is not the case with the School Building Committee. Despite a plan to meet monthly starting in June, the committee now finds that specific discussions and votes will require two meetings in July and two in August. For these hot summer months only, the meeting location has been changed to the second floor conference room at Town Hall. Meeting dates, times, and locations can be found on the [News & Updates](#) page.

New additions to our website include the Project Schedule which can also be found under [News & Updates](#). This chart shows the progress of the project since its inception and the anticipated dates for completion of specific phases. Already, we are ahead of the original schedule, due to the remarkable commitment on the part of Ai3, our architectural firm. And as a reminder, after every new set of minutes is approved by the School Building Committee, they appear on the [Minutes](#) page.

The committee thanks you for your interest and support of this project. Please check back regularly for monthly updates to this website.

Sincerely,
School Building Committee
