

## **July 2012 Update**

At the final School Committee meeting of the year on June 21, Dave Foley and Kevin Smith were appointed to the School Building Committee. Dave is a member of the Finance Committee and Kevin works with facilities systems, specifically HVAC. Both of them bring valuable skills and School Building Committee members are grateful for their willingness to lend their talents to the project.

The concrete slabs for the first floor of the building have been installed and work is progressing on schedule. Meeting dates have been set through the end of the year and can be viewed by clicking on the “News and Updates” tab.

This summer, committee members will identify items that will be brought to the new school and will recommend the process for “naming” areas of the new school.

Stay tuned to EB Cable TV, too! Superintendent Susan Cote and OPM Simon Tempest will be taking viewers on a video tour of the new construction.

Summer is here but the work on the project does not stop. As ever, we thank you for your continued interest in the new school project.

Sincerely,  
The School Building Committee
